Anthracite RAL7021

DESIGN

Bamboo

Tightly defined and with a natural character: the 'nature design motif' Bamboo fits in every garden. Stand alone or as a decor for your plants, Bamboo is a feast for the eyes in every garden. The horizontal lines accentuate and visually enlarge the space in your garden.

Off-white RAL7032

Off-white RAL7032

DESIGN

X-line

X-line from our design collection is playful, but looks sleek and modern. An ORIGIWALL for everyone who likes tight motifs. The repetitive, futuristic X-shaped motif makes your fence the eye-catcher of the neighborhood.

ORIGIWALLS

Combine concrete with wood

Do you want to combine our ORIGIWALLS with wooden screens? You can. Use our concrete products - colored or uncolored - as the basis of your fence. Simply place our wooden fences in between.

Horizontal

Vertical

Tooth groove

Filling lath (wedge-shaped)

Fixing bar

rounded

From two standard concrete colors are 16 different colors created after application of the resin in ral color.

Thanks to the base color from the concrete, the finish color comes out perfectly.

The resin colors are based on RAL colours. So you can change the color of your fence and perfectly match it with the colors of your environment.

Colors in this brochure may deviate from final result. Ask for advice at your distribution point.

RAL 1020	RAL 6013	RAL 6003	RAL 8016
RAL 8002	RAL 1019	RAL 7006	RAL 1014

Try it yourself: our online calculation tool

With our calculator on www.baj.be you can put together your own fence. The calculator does the rest. You get our **suggested retail price*** for the base material of your fence.

**recommended price = BAJ concrete recommended retail price excluding transport costs, installation and other costs specific to your chosen distribution point.*

Why choose for ORIGIWALLS?

Our products are not only colored on the surface, but are colored in the mass. In this way, the backside of the fence has the same base color as the front side.

SINGLE OR DOUBLE SIDED?

Our plates have a design on one side and are flat on the other side. Do you want a design on both sides? Place two plates with narrowed ends next to each other, in the same pole. In this way you can have both sides with a separate design and color. That's how you choose yourself the design, and your neighbor may have another design for his garden.

SPECIAL RESIN FINISH

Advantages:

- a protective layer through which the structure comes out even better
- always the same full color, both in dry and wet weather conditions,
- a water-repellent layer, so that moss develops less quickly.

Thanks to this treatment, the fence lasts easily 20 to 30 years.

ORIGIWALLS ARE DURABLE

At BAJ-Concrete we invest constantly in innovation and renewal. From concrete production, our services, ecology and well-being. We bring good, sustainable products on the market and want to keep it that way. That's why we're always looking for ways to improve them, to recycle and make our production process as 'ecofriendly' as possible.

FINISH

Foundation and grouting materials, wedges

At BAJ Concrete you will find the necessary foundation materials to make your fence firm fixed in the ground. You can order these products together with your ORIGIWALLS. In this way you will immediately have the necessary materials to fix the fence in the ground and to finish with jointing mortar.

Jointing mortar

Joint sealant

Leveling wedges

Jointing tools for fast and simple precision work

Jointing tools EASYFAST and QUICKJOINT are easy to use for both professional and private jointers.

With these user-friendly jointing machines you can apply the jointing mortar easily and quickly.

With this application, you don't need expensive silicone. The EASYFAST and QUICKJOINT deliver equivalent results with ordinary jointing mortar.
